

Online training for the social housing sector

Constant support in a changing environment

From our experience of working closely with our social housing sector customers, we know you are committed to providing the right training to support and develop your staff.

We also appreciate that you need to ensure that induction and refresher training supports understanding and compliance and also provides training specific to the wide range of job roles within your organisation.

Our support can provide a valuable constant in a changing and challenging environment. We offer flexibility of access to our online learning resources and support via three levels of membership package.

How we can help you

With over 20 years’ experience and 2 million online learners, we are proud to work with over 150 social housing providers as the leading online learning supplier to your sector:

-  **UK support**
We take the pain out of training management, supporting you and your learners every step of the way
-  **Courses developed with subject matter experts**
Updated regularly, our courses are developed with appropriate subject experts to ensure they meet the latest legislation
-  **Quality and value**
Our online courses can help you deliver training throughout your organisation effectively and economically
-  **Easy reach**
As the learning is online, we can help your training reach geographically dispersed or non-office based staff
-  **Flexibility**
In addition to our specialist social housing sector courses, we provide a wide range of over 300 induction, refresher and job-specific courses

“ We need to keep learning current and this is a really cost effective way of ensuring this. ”

Adam Curry, Workforce Development Manager, Hanover Scotland

Membership options with quality and value

For economy and ease of access, our range of annual membership options is highly recommended.

Each option gives free access for an unlimited number of learners to five sector specific courses:
