Statutory and Mandatory Online Training for Health and Social Care

www.healthcareea.co.uk

Flexible and cost effective online courses

This training package is an effective and efficient way to ensure your organisation meets its statutory and mandatory obligations.

The team works alongside subject matter experts to develop online courses designed specifically to meet the needs of those working within a health and social care environment.

This includes: acute, community and mental health trusts, CCGs and primary care, private healthcare providers, care homes and hospices, ensuring the continued safety and well-being of their staff and patients.

❝ Interactive modules make the training more interesting and easy to understand.

South Staffordshire and Shropshire Healthcare Foundation Trust

Recognising that most healthcare organisations will have their own specific training requirements, our flexible range of 24 statutory and mandatory courses is designed to allow you to create your own tailored package.

It enables you to monitor your staff training online, allowing you to manage your statutory and mandatory responsibilities with ease.
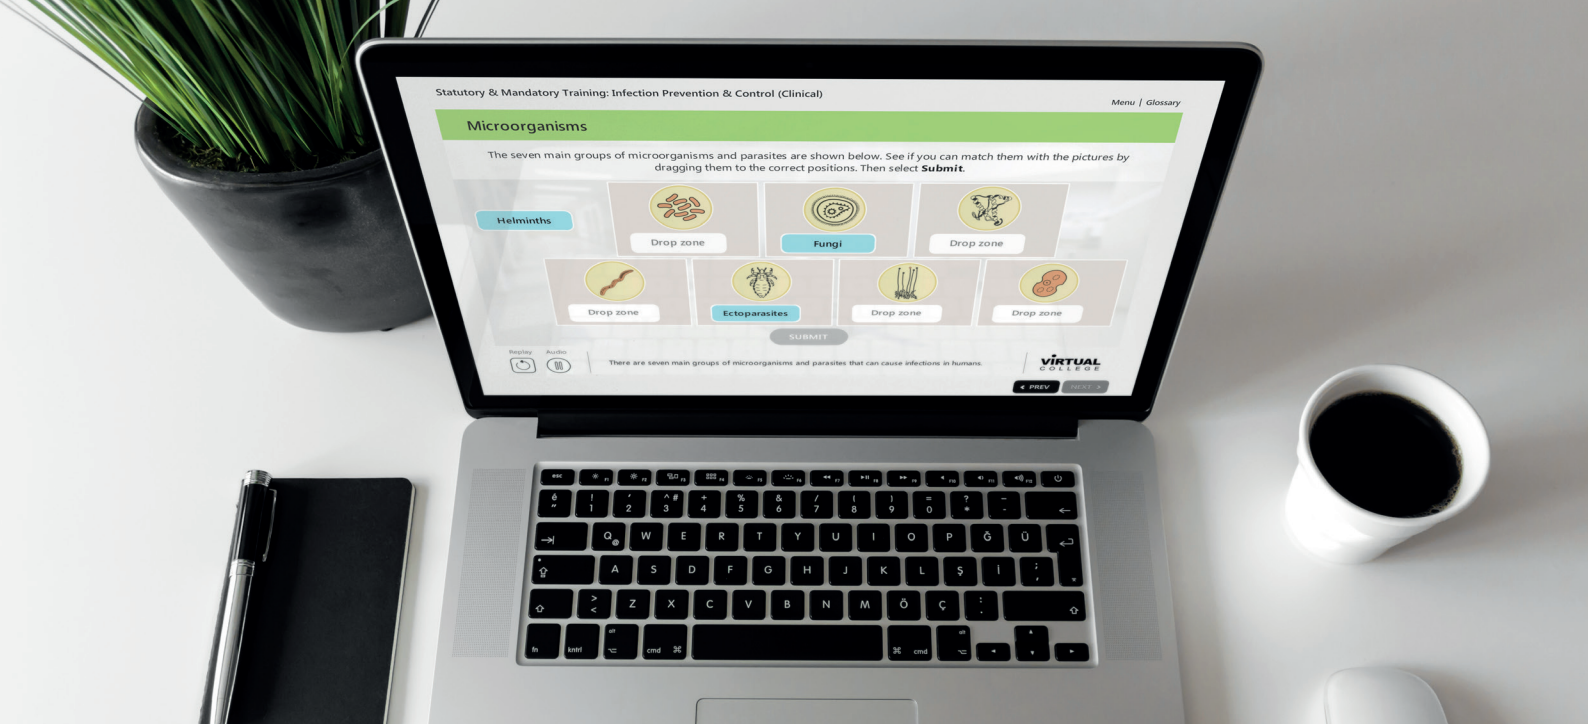

Our online courses offer effective clear and simple to use training so you can be confident that accurate and consistent knowledge is delivered to your staff.
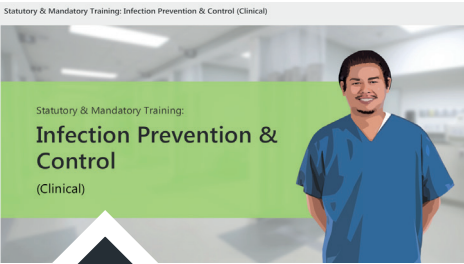

How it works

1. Select the courses you want in your package

2. Issue the training to learners quickly and easily, based on job roles

3. Refresher quizzes are allocated automatically to all staff before their training expires

4. Access training records instantly for assessments and compliance reports

These courses are mapped to Skills for Health's Core Skills Training Framework. As a result, they meet National Occupational Standards, GMC/NMC Standards, CQC – Essentials Standards of Quality & Safety and NHS Litigation Authority Standards. The courses are all CPD certified and also meet the Care Certificate standards where applicable.

In addition to these statutory and mandatory training courses, Virtual College has over 150 other relevant online learning courses in areas such as: safeguarding, mental health, clinical, service improvement and information governance.

A dedicated e-learning consultant will work with your organisation to ensure that the package is used to its full potential. Face-to-face implementation sessions are also available and a UK-based customer support team are always on hand to help your learners.

Learner feedback

❝ The case studies are very useful.

❝ I really liked the games, they were used to great effect.

❝ Saves time away from the ward and more cost effective.
